

**19-11-2015 @10AM**

**Melbourne Centre of Nanofabrication  
151, Wellington Road, Clayton**

# **A WARM WELCOME TALKS ON INNOVATION**

## **LIVE DEMO & PRODUCTS DISPLAY**

Wide spectrum with a blend of scientists and engineers contributing towards the development of novel technologies that are efficient, innovative and sustainable for civilian, military, societal & medical applications.

Thrust areas of Research in Material Science, Aerospace Engineering, Disaster Mitigation, Sustainable Development & Life Sciences

**Interactive Session  
with Research Team**

**This is a Golden  
Opportunity..!**

**Innovation beyond  
Imagination**

- Autonomous and Intelligent Systems.
- Marine Systems.
- Micro Electro Mechanical Systems (MEMS).
- Nano biosciences engineering.
- Energy & Environment.
- Bio polymeric materials for medical, and energy applications.

**Explore More on the  
Day..!**

## **T&R CONSULTING**

Suite 410,370 Royal  
Corporate Domain  
St Kilda Road, Melbourne
